## THE BRAND

# •CYMRU •WALES

.cymru and .wales are the top-level domains for Wales and were launched on 1<sup>st</sup> March 2015 by Nominet, the organisation responsible for the smooth running of the .UK internet.

For those who want to underline their Welsh connection or heritage, the domain name endings are a visible sign to anyone who visits their site. It's great news for Wales, Welsh businesses and anyone who wants to target the Welsh market.

### .CYRMU .WALES LOGO

# •CYMRU •WALES

#### EXCLUSION ZONE

To help the .cymru .wales logo stand out and to avoid any visual conflicts or cluttering, an exclusion zone has been created using the height of the 'C'.

Our logo is the most visible piece of our identity. It's a unique, bold and distinctive stamp that qualifies every message, giving equal weight to both of the top level domains - .cymru and .wales.

Never alter the logo in any way. Wherever possible, please use this primary version of the logo.

40px / 15mm

#### MINIMUM SIZE

To ensure legibility, the .cymru .wales logo must never appear smaller than 15mm in print and 40px in digital in height. This also applies to the alternative logos.

## ALTERNATIVE LOGOS

Alongside our logo lives our brand descriptor, 'Our home online'- or its Welsh language equivalent, 'Ein cartref ar-lein'.

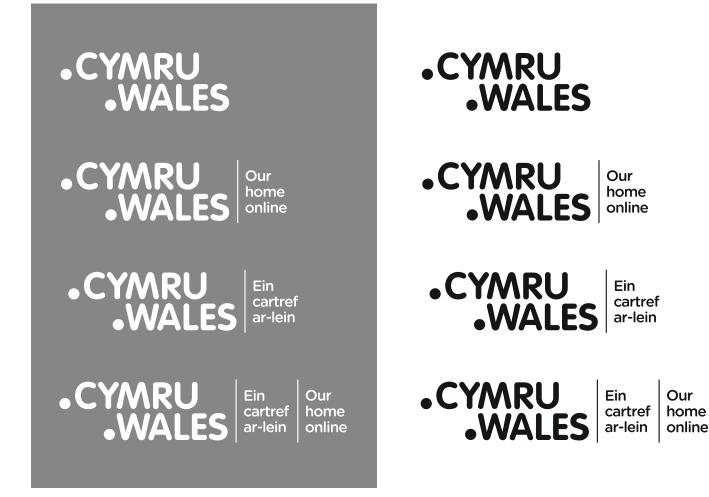

Where possible, the logo should appear with the descriptor, in one of the three formats shown on this page. In any communication, the descriptor will use the same language as the headline message. For example, when messages are bilingual, both descriptors appear.

home online

## ALTERNATIVE LOGOS

There may be instances when a full colour version of the logo isn't applicable. In these circumstances there are alternative colour versions available.

All three cuts are italicised, so you can add emphasis in these weights.

However, in some cases such as emails where we cant guarantee the use of Gotham Rounded, Arial Rounded must be used instead.

### PHOTOGRAPHIC STYLE

Photography is a major part of .wales .cymry's identity, it is prominent in everything we do.

The photo library is a flexible tool in creating interesting and engaging graphics by combining Welsh landscapes with small business moments.

Treatments in the brand identity include fading the images down to black and white and using the brand colours as multiply effects above the image layer. This can be used to further increase the Welsh branding in the graphic.

## GRAPHIC ELEMENTS

#### THE DOTTED LINE

The dotted line can be used as an underline or to add emphasis.

#### DOTS

The dot is a prominent and flexible piece of the brand style - it can be used to house both images and text, used as a pattern or to introduce a brand colour into a design.

#### SKEWED ANGLE

The skewed angle of block colour can be used to add a dynamic element to the page. The angle of the skew is 8.5° or -81.5°.

## TONE OF VOICE

To have a credible online presence, we need to have an authentic voice. People can be quick to dismiss one-dimensional blogs and social accounts that try and dictate the relationship. While what we say is determined by our expertise, experience and ambitions, how we say it (these voices) are decided by our values and personality.

At 'Our Home Online' and 'Ein cartref ar-lein' we are, friendly, trust worthy, passionate and proud of our Welsh identity.

#### FRIENDLY

We have a warm, personable, and down-to-earth approach. We speak to our audience in language they understand - not putting them off with jargon or caveats.

#### TRUSTWORTHY

We're the official voice of our domains, and speak with an authority reflecting our public benefit mission. We are a credible source of information to our audience, and take that seriously. The content we share is reliable and accurate.

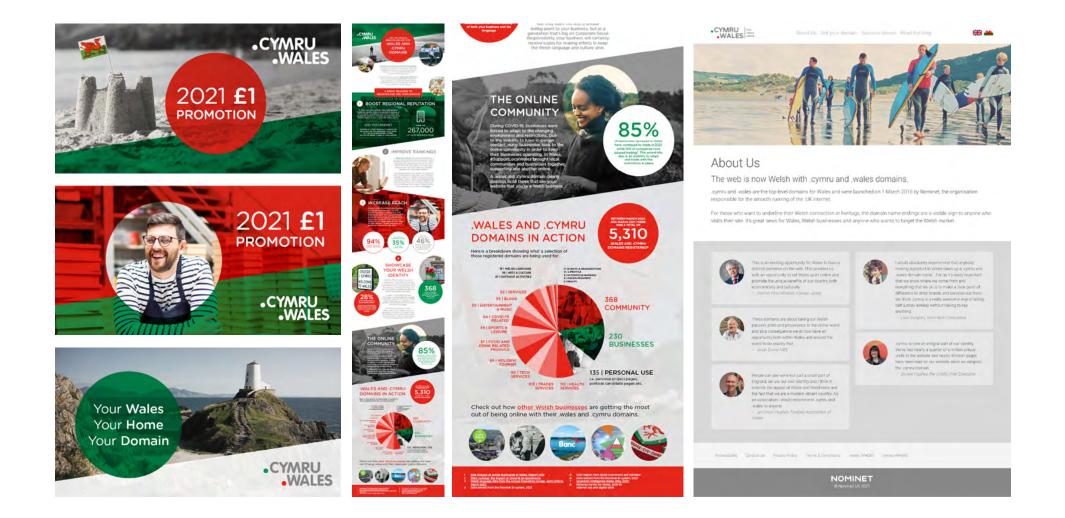

#### LOCAL

We are always proud to show of our Welsh connection. We must be accessible for everyone who wants or already have a Welsh domain. Thus, it is important that we are bi-lingual, so all of our content/produced material always is available in both English and Welsh.

#### PASSIONATE

Aspirational and passionate, we love sharing the potential that having your own online space has, and celebrating the success stories we see fulfilling that promise. We are extremely passionate about fulfilling our goal: To make the web more Welsh.
